

Mobility Kit

Designed to eliminate cable constraints, the Mobility Kit enhances the portability of select FARO CREAFORM handheld 3D scanners by providing a seamless wireless connection to the computer.

The Mobility Kit is a lightweight, safe, and compact module that delivers the same trusted accuracy and reliability as a wired connection—all while eliminating the limitations of a tethered setup.

Reliable and Accurate

- Same trusted performance as a wired connection
- No compromise on accuracy or reliability

Easy to use

- Compact module designed for quick, secure belt attachment
- No bulky external router, no external power required
- Swappable batteries, easy to install and remove

Ergonomic

- Certified, safe batteries with built-in protection against overheating
- Comfortable belt-mounted design

HandySCAN 3D EVO Series with the Mobility Kit

Perfect Synergy.

The Mobility Kit is the ideal companion to the HandySCAN 3D EVO Series™—together forming a high-performance, fully mobile 3D scanning solution.

Featuring a powerful embedded graphical user interface (GUI), the EVO Series was engineered to simplify the scanning process and improve ergonomics by aligning the user's gaze with both the scan data and the physical part. The result: more intuitive data acquisition and a more comfortable user experience.

When paired with the Mobility Kit, the HandySCAN 3D EVO Series stands out as the most powerful handheld 3D scanner on the market—enhancing freedom of movement while delivering Creafom's signature metrology-grade qualities: proven reliability, renowned portability, and accredited metrology-grade accuracy.

This seamless combination eliminates the need for external power sources and long cables—allowing you to scan freely and view real-time data directly on the scanner's integrated display.

Execute your workflows with greater efficiency and elevate your scanning capabilities by combining the Mobility Kit with the HandySCAN 3D EVO Series.

Technical Specifications

	Mobility Kit
COMPATIBILITY	HandySCAN 3D EVO Series
WEIGHT	644 g (1.42 lb)
DIMENSIONS	129 x 205 x 76 mm (5 x 8 x 3 in)
