

**CREAFORM
ENGINEERING**

DRIVE YOUR ENGINEERING FORWARD

Thanks to over 160 experts from various fields with outstanding achievements in several sectors, our design, engineering and simulation services will ensure responsiveness and seamless interoperability in your business, while allowing you to reduce overall operational costs.

Centered on efficiency and results, our multidisciplinary team is known for adapting quickly to customer requirements and undertaking any project from smaller to larger scale.

Our reputation is flawless: we will respect your deadlines, your budget, and your mandates.

DESIGN

Creaform's design and product development services provide access to professionals with the expertise and tools you need to design innovative, high quality products that are tailored to your market, while reducing operating costs and eliminating unnecessary risks.

- Industrial design
- Advanced surface modeling
- Prototyping

ENGINEERING

Our experts know how to obtain short and long term results by adopting a forward-thinking and pragmatic approach to all engineering challenges, from conception through to completion.

- Mechanical
- Electrical
- Automation
- Reverse engineering
- Project management

SIMULATIONS

All product development processes can benefit from numerical simulation services, which can help you solve your problems and better guide your decisions. Creaform is here to assist you in achieving better performance and higher quality by optimizing your design and manufacturing methods.

- Finite element analysis (FEA)
- Computational fluid dynamics (CFD)
- Testing and prototyping workshops

TRAINING

Using our comprehensive and customized technical training services, you will not only maximize the potential of your resources, but also improve your overall productivity.

STAFF OUTSOURCING

Our staff outsourcing services offer a team of versatile, skilled and conscientious professionals to help overcome any challenge. Creaform ensures quality work and extremely fast turnaround times, with more than 160 available experts.
