

THE CREAFORM SHOP-FLOOR WORKSTATION AND C-TRACK SHOP-FLOOR STAND

The **Creaform Shop-Floor Workstation** is designed to ensure optimal manufacturing performance when using Creaform's dimensional inspection devices in production environments. It incorporates all the tools you need in one workstation. It offers secure storage for all your Creaform 3D measurement technologies (portable 3D scanners, portable CMM, photogrammetry system) and related accessories. By adding flexibility, mobility and reliability to Creaform's systems across a production plant while being in operation, the workstation improves efficiency, productivity and the overall quality assurance process on the shop floor.

Stand-alone or bundled with the workstation, the **C-Track Shop-Floor Stand** facilitates the mobility of the C-Track™ around the part to be inspected while running. Once mounted on the stand's extendable pole, the C-Track dual-camera sensors can reach a height of 1.9 m (73 in.) to accommodate high and low inspection set-ups. Also fitted with locking wheels and retractable legs, the stand can easily adapt to static use. Paired with the **Self-Power Kit** (external battery), move the C-Track Shop-Floor Stand from one place to another without worrying about temperature stabilization time when shutting down/restarting the C-Track and controller. Along with the workstation, it provides a complete solution for a real-time manufacturing quality control process.

WORKSTATION DIMENSIONS:

LENGTH 0.7 m (28 in.) x **WIDTH** 1.2 m (48 in.) x **HEIGHT** 1.4 m (54 in.) (WITHOUT TV)

STAND DIMENSIONS:

LENGTH 0.5 m (22 in.) x **WIDTH** 0.6 m (26 in.) x **HEIGHT** 1.2 m (47 in.) (WITHOUT C-TRACK)

ROBUST HANDLE AND HEAVY-DUTY LOCKING WHEELS TO FACILITATE WORKSTATION MANEUVERABILITY IN REAL-LIFE SHOP FLOOR ENVIRONMENTS

FOUR LOCKING DRAWERS TO PROTECT CALIBRATION BARS, PROBE, 3D SCANNER AND PHOTOGRAMMETRY SYSTEMS AND ACCESSORIES

STORAGE FOR POWER SUPPLY

IMPROVED CONNECTION RELIABILITY (PERMANENT CONNECTION BETWEEN THE C-TRACK AND CONTROLLER—THE DEVICE DRIVING THE C-TRACK)

ROBUST AND MULTI-POSITION MOBILE STAND

STORAGE FOR C-TRACK SELF-POWER KIT (NOT INCLUDED)

ADJUSTABLE TV MOUNTING KIT ENABLING REAL-TIME VISUALIZATION OF YOUR 3D MEASUREMENT PROCESS (TV NOT INCLUDED)

MOUNTING HOLES FOR OPTIONAL COMPUTER SECURITY CABINETS (DESKTOP COMPUTER AND CABINET NOT INCLUDED)

LOCKER ENABLING TWIN DOCKING OF THE C-TRACK SHOP-FLOOR STAND

EXTERNAL DOCKING PLATFORM WITH RUNNING C-TRACK FOR MOBILITY (REQUIRES THE SELF-POWER KIT (OPTIONAL))
